Thread: [iTunes back up extractor](#)

Omer19967 - April 29, 2019, 1:49 pm

Hello, I have a iTunes backup which I want to get access to and I need a program that can do that but I don't want to pay almost 60\$ for a one time use, anyone has a program that is cracked or anything else or any idea?

Thank you

Just torrent it.

Download Utorrent, get a VPN, google a torrent for the program you want.
