Hi, 45\$ is just an example and one of the most common amounts bought. However, you can get as low as \$10 from \$100 too but not so often. So, "UP" to 90% OFF applies.
Cheers ?

Allright, Does the method still works and how much time does it require to obtain 1 gift card?

flavoral - May 9, 2019, 12:02 pm

There are multiple methods included in the package and all of them are working as for today (9th May 2019), in case something gets outdated, I provide update.
How much time it needs to obtain GC: Depends from the method(s) you are going to use. Fastest is almost "Instant" and slowest can depend from multiple factors.
Investment is highly recommended.

Hi, no. There are no generators or checkers in this package.

Hi, You may purchase this eBook w/ multiple methods on how to obtain netflix accounts/gift cards with guarantee or full refund* if all methods fail.

However, if you are interested just to buy netflix accounts or netflix gift cards (separately) then this thread is not for you. I don't own netflix shop yet.

Netflix shop is not completed yet and is being coded by our developer. When it will be opened, it will be announced in the OP. Currently, ETA will stay hidden for privacy reasons. Also, netflix shop might be available only for customers who bought this eBook.

*Refund is sent via PP.

Cheers ?

I'm confused. Why would the Netflix shop only be available to people who bought the eBook? Wouldn't they be able to get accounts on their own with your methods?

Hi mate,

In my previous reply, i said it might happen but I'm not 100% sure yet. I just don't like one-time purchases from random members, to eliminate that... I am thinking some alternative options. For instance, maybe some kind of monthly membership for Unlimited netflix accounts/giftcards or eBook affiliate for Daily netflix accounts/giftcards and so on. Still, I'll decide with partners when the website opens. I am open for all kind of suggestions as long as its via PM to keep the thread clean since it goes kinda off-topic.

If you have further questions on-topic, let me know.

Cheers. ?
