Thread: [Method eWhoring with fake cams \(old method\)](#)

runner - May 1, 2019, 10:02 am

I found this method from 2013, there is any new ideas/improvements for eWhoring with fake cams?

Old method:

Go to a chat website, and spam something like :- Hey boys who wants a camshow for [YOUR AMOUNT OF MONEY] on skype? add me :) [YOUR SKYPE NAME] xx

tell them to add you on skype get into a chat and

1.Be really fuck*ng horny and say you want **ck or whatever

2.create a sad story of how your Bf dumped you and you're going through a rough time, or your rent is overdue or whatever

3.Just act like a normal whore

Now these people will test you. they will ask you to stand up or blow a kiss or what ever.this is why you should all go for heather.

once you've convinced them you are real say that you accept paypal (because now 2019 paypal ban accounts, better Vemno, Amazon, Googlepay).

now heather (VCW) will strip, so when she does in the middle of stripping block and delete that person so they think you got disconnected. and BAM theres your money, now i'm going to be honest. this will not always work some people will be cleaver and say they sent you the money when they didn't, other people will pussy out

Good luck!

It use to work but nowadays it's a slow and inefficient method - Make an Onlyfans, verify it and run a model on there and you'll make 10x the money with much less effort haha.
