Yeah, he said 8 shots, but hit me only 3 times lmao then made excuses for getting wiped when he had range and I was forced to push.

21 kills are way too many for a game like Blackout, at least that's how I see it! Good job man ;)

What's your highest squad kill game on Alcatraz? I've been watching some people getting like 89 kills but it took great communication in order to not kill all members of a squad so they'd respawn.
