Thread: [Reddit Resource for Educational Learning](#)

null_byte - May 2, 2019, 8:18 pm

I've got quite a few resources to share for continuing education.

This one lists Udemy (warez disallowed) courses that have completely free discount coupons. The numbers are limited, so you need to be quick most of the time.

Thanks for sharing. Haven't tried on taking a course from this site, so it's probably going to be a first if I find anything interesting.

I've done about 20 different courses on Udemy (warez disallowed). They vary in quality. Thus far, I think I've only paid for one and all the rest were free from coupons. I'm glad of that due to the poor quality ones! I would have been very angry to have spent any money on those!!!
