I listen to Heavy Metal occasionally but I enjoy the more classic bands. I love Black Sabbath and Iron Maiden, with Metallica, Motorhead and Judas Priest coming after.

This is exactly me. I dress like an '80's biker too lol. Denim cut off with patches over leather jacket etc. \m/

I really need to purchase a nice biker leather jacket. It's one of the few pieces that my wardrobe lacks, so I can walk into rock bars like I'm a million bucks. Blue jeans, white t-shirts and denim jackets all the way for now.

Where I lived there was a cool biker's pub we were always in. We moved here and there's nothing like that locally. In fact, I'm the only dude in my local area that still rocks that look. I'd rather that than being a sheep though :)

Fortunately, there are plenty of rock bars and pubs in my area. There are a couple of bike clubs as well. People still love that lifestyle. You can imagine what happens when those bike clubs host events in the local pubs. Madness.

I prefer more power metal-like over heavy metal

Barely listen to metal at all tho, unless it's a nightcore version<3

I haven't listened to new metal in a long time. Most of what I listen to right now is from back when I was an emo kid

lamb of god's killadelphia album is fire and slipknot's debut album is where it's at the rest kind of disappoints
