Thread: [Sentinel Keylogger Help](#)

Sylow192 - May 4, 2019, 2:36 am

Hello,i'm new to this..

1)Sentinel Keylogger needs a crypter or is UD?I don't need FUD,i just need UD Avast,Avira.

2)What are "Exploits"?What's the difference between Basic Version and Premium?(I know that premium is lifetime and etc..,but i want to know other things)

Thank you very much!

Alpha Keylogger, encrypts your informations, and also obfuscate most of the stub, but there isn't any FUD keylogger in HF as much as i know, u need crypter, anyway if you are interested as i mentioned u get %10 discount in Cyber Crypter ?

DamienVC - May 5, 2019, 5:24 pm

Accepted your req,

i) Its UD, as in its 80%~ FUD all the time

ii) The exploits are simple free macro/other-gimmicks (OLE, cmd, powershell, etc) exploits, you get them with each pack.

Exploits basically are like .doc, .pdf, etc, turning your exe into another file type.
