Thread: [100% Working SMS/text bomber \(Customizable smtp server & works on 100+ providers\)](#)

?K47 - May 5, 2019, 1:29 am

Selling 5 more copies of my private SMS bomber...hits hard & rapid, 90% of the free SMS bombers do not work straight, most the popular email services are all combining with Oath and adding "bot security" on their smtp servers....so I was going through some old usb drives and found this source code to my old sms bombers from back in 2015 and updated it and got it fully working again on most smtp mail servers/email accounts. Works on over 100+ different cell providers.

\$20 per copy

Msg me if interested on 1 of the contacts in my signature,

Anonimox - May 7, 2019, 9:37 am

does your sms bomber working with Maldives Carriers ?

ETH - May 8, 2019, 8:36 am

Which country carriers are supporting and it requires any proxy or good smtp servers

kushpvohack - May 10, 2019, 9:05 am

Interested!

Do you provide the SMTP server?

What countries are supported for SMS?

zelus - May 16, 2019, 9:46 am

Please, if you are still selling this, shoot me a PM.

I need a copy. Thanks

capojimmy08 - May 16, 2019, 12:30 pm

do you have icq ? i cant send you pm i hate this ...pm me pls

Dark-Bot - May 17, 2019, 1:28 am

who bought it, give me an honest review . thanks

?K47 - August 2, 2019, 12:13 am

My bad all for bein MIA & all the late responce to messages as I just started a new job here in the 502 industry(recreational marijuana industry) & just got done moving into a new place so had n0 free time to handle my online projects but tried to respond to all questions here and in pm tho.

(May 8, 2019 08:36 AM)ETH Wrote: [\[CITE\]](#) Which country carriers are supporting and it requires any proxy or good smtp serversLots of countries in the Americas, UK/Europe, Australia, and some Asian countries(ones that use the english alphabet like Philippines)

Do you provide the SMTP server?

What countries are supported for SMS?Yes I will provide you a working SMTP server & email account, everything needed to plug in and start text bombing.

Works with lots of countries cell providers and I can always code in new ones as long as they use the english alphabet & the service has email/sms capabilities.

GLWS88 - October 1, 2019, 9:26 pm

Can it mass spam a list of numbers?

ruszmanxx - December 4, 2019, 8:35 am

friend is be available currently?

darckangel3 - December 6, 2019, 7:45 am

I have a Hotmail scam, because spamming hotmail by email is complicated, I decided to look for other options and I think the best way is to send spam through sms bomber, I saw your publication and I'm interested in buying your services: <https://hackforums.net/showthread.php?tid=5966813> please send me your discord or telegram. Thank you.

Lextian - December 9, 2019, 10:54 pm

Since you have the source code, can you modify a private privation for mass/bulk spamming?

?K47 - December 14, 2019, 12:11 pm

Sorry for the late response I been working mad hours at a new job in the "502 Industry" and then my Surface got stolen by one of the tweakers in my apartment building...locked it so wont ever gain access to my HD but still hoping they attempt to charge/power it up so I can GPS it and go get it back...but anyways just finally bought a new Surface and got all my software and files restored so will try to be a bit more active here and on my IM's(usernames in my sig) going forward.

Thank you.Actually in my experience with sms spammers/bombers, msn emails seem to work best

with normal mail servers(pop3/imap) but also have had good success with aim/aol accounts. But not sure what kind of hotmail scam you are referring but if still interested contact me on any of the emails or IMz in my signature below. I would send you my info but I do not have a discord or telegram.

If you are more looking for a spam tool for links then I'd recommend an email bomber/spammer instead cause I know theres some that can use multiple accounts and can spam multiple emails at a time (could technically spam cell phone numbers as well if you know the providers sms email format, examples...

OK OP thanks for clearing that up and GLWS.

Cassahav - July 29, 2020, 12:50 am

Is this available as i am very much interested in this

codetosend - August 25, 2020, 2:57 am

Does it still work man. I'm really Interested please message me to xdangance@gmail.com thank you.

afexmillion - September 8, 2020, 1:13 am

Hey, respond to me if you are still offering this service. I reckon it's an own SMS bombing service that could act as a phone, right? Hit me up and I will test it soon and determine if it's worth using.

mUtWo - September 8, 2020, 2:13 pm

interesed... but I just see no reply from the owner...

hmmm...is this working for uk ?

thank you..
