i will riot until i get my fucking purple gift!!!!!!! /s

some other people had this issue, not sure what happened
also i got the 2nd created green gift in existence (that turned green i guess)

basically:

as soon as I got the PM, I had the purple gift for a few hours.

Then, I woke up the next day and it was green. I was on mobile so I thought it was CSS issue, but then other people told me it was green, then I checked on pc and it was green. Not sure what happened, but i want my purple back :(

If I had to choose I'd definitely prefer the purple one, still it doesn't look bad at all in green shape I hope to get it one of these days
