Milf - May 7, 2019, 10:31 am

Name: Milf

Age: 20

Skills: I have a particular set of SEO skills.

How many hours a day are you online: I've been an active member since 2011 with over 2000 OP posts. I've also been writing for the Writ3r's Wiki Team, in which u can find my name under the Contributors list. However, I've been inactive for long and I'm bound to come back!

Are you currently earning online?: None, but I've SEO'd back in the days and I still practice during my free time.[b]

[b]Why do you want to join the group?: Learn new skills, be a part of the Hackforums community again and if you'd like and also; earn money

If accepted into the group, will you be active in the sub forum: Definitely, I can write for the Sub-forum making announcements, write OP threads and be active in the comment section of the sub.forum

A little short application, nevertheless. Good luck to anyone who get accepted or participate!

Wolf - May 7, 2019, 10:49 am

Wolf's Masterminds Application

Name: Vuk (it literally means Wolf)

Age: I'm 21 :)

Skills: I'm knowledgeable when it comes to PC hardware, anime and psychology. Understanding human mind allows me to manipulate situations in my favor. I'm also quite capable psychically, working on becoming a personal trainer. I enjoy doing graphic in my free time, although I'm not the best when it comes to it, but I'll improve over time :) I can also create websites and let's end it here as the list will go on and on.

How many hours a day are you online: I'm online most of the time during the day, except time spent in the gym.

Are you currently earning online?: Yes, I'm currently earning online, from multiple sources.

Why do you want to join the group?: I'm looking to direct time spent online on Hackforums, so joining a group would be an ideal place to start. Exchanging experiences with like minded individuals would benefit all of us, as we'll continue to improve by sharing ideas between each other. Also love the userbar.

If accepted into the group, will you be active in the sub forum: Yes! I will be active in the sub forum :) That's why I'm applying in the first place.

Psychedelic. - May 7, 2019, 11:04 am

Name: Jason

Age: 22

Skills: I specialise in malware, mainly construction of malware, reverse engineering. I have worked with almost every sample in the wild, and can easily help out with the setup of botnets or rats. I also run a free private investigation service, with over 45 members requesting my help in the past few weeks. I have a very high success rate and do not charge a fee unless I am successful. I have been able to find everything from members looking to see what they can find online about themselves, to those who have been scammed. I am always glad to help members out. I also do have an interest in selling products on hackforums, I may be selling one soon.

How many hours a day are you online: On weekdays, a few hours a day, weekends, about 5. I am often on hackforums and posting.

Are you currently earning online?: Yes, in the past few weeks I have earned about \$300 in bitcoin of tips from my private investigation service. I am also a crypto trader with a portfolio for both long term and short term holds. I can provide info or help to any user who requests it.[b]

[b]Why do you want to join the group?: I would like to join this group because it gives me the opportunity to connect with others with similar interests, and share my knowledge with any others who request it.

If accepted into the group, will you be active in the sub forum: I will be extremely active, posting several times a day. I will constantly share guides and methods with other members of the group. I can provide help with anything from doxxing, malware, to crypto trading and earning money online.

I look forward to my application being reviewed and if accepted I will be a huge contributor.

123 - May 7, 2019, 4:24 pm

Name My actual name is Ash but on-site I go with alias Dollar.

Age: I am 22 years old.

Skills: I'm a Biochemistry Student in college and quite good with my subjects.

Apart from studies I also do GFX work in my free time but I'm not good at it.

Can do website designing as well and have designed my website a while back which was based on Astronomy.

I also love writing poems and working on one Sci-Fi novel. I'm most of a Science Guy.

As a hobby I'm learning Python but I can't say it's my skill. It will take few more months before I'll practice and convert it into skill.

How many hours a day are you online: I just checked my posts count for last week and I'm averaging like 35 posts/day. So it's safe to say I'm quite active on HF.

Are you currently earning online? Yes, I'm earning from flipping few things and have a reliable income sources.

Why do you want to join the group?: Since most of the time I'm online, I would love to interact with other group members and learn few things from them. The knowledge transfer will be mutual of course ?

If accepted into the group, will you be active in the sub forum: Of course without any doubt. I'll interact with group members and hopefully make new friends on-site.

Some info about me I'm a non toxic person who doesn't like to get involved in argument or debates as such. I'm an ambivert and love interacting with new people. I love helping others in general.

Things I'm gonna bring to group. A lot of positivity and chilling nature which will surely infect all members of the group.

Caligio's Application

Name:

Caligio

Age:

I am currently 20 years old. Born in July 1998

Skills:

Adult Affiliate Marketing, Social Media growing (beginner level) and one of my best skills is that I'm a fast learner.

How many hours a day are you online:

I basically live online... 6-16 hours/day easy.

Are you currently earning online?:

That's my only source of income at the moment.

Why do you want to join the group?:

I want to be in an environment of likewise thinking people, I would also gladly help fellow members out, as well as would create tutorials/help-threads for the general HackForums under the name of "Masterminds".

If accepted into the group, will you be active in the subforum:

Of course, you will see me actively participating in the lounge and almost any other discussion thread, and no - I'm not a post collector, I just have an opinion on various topics.

Glided - May 8, 2019, 3:37 am

Name:

My name is Glided, but I'm called Ryan. I'm 18 years old, a senior in highschool, about to graduate and head off to the army. My fathers in the army as well, an E8 that's been in for 23 years. I see this group as a great way to express my time and activity within the site to other members within the usergroup. I'm currently in zero usergroups, so the fact of this usergroup being my first, and for the fact that I, myself, is an entrepreneur, I feel as if I'd be an excellent fit towards the group.

Age:

I am 18 years old. I will be turning 19 on the 26th of this month!

Skills:

I specialize in a variety of things, which is why I feel like I'd be a good fit for the group. Some include: entrepreneur-related tasks, marketing, military, stocks, socialization, hacking, software designer, game designer and website designing. Having a broad list of specializations like that, I feel would be a great addition to the group. And since the fact that my specializations range from different categories, from military work to stock marketing, would be a good fit to the group. I'd be very willing to share tips and teach people about some things I specialize in, and I'm very open to learning to do new things, in which other members in the usergroup would specialize in, which would be a win win for everybody. If I were to be accepted into the usergroup, my list of skills and things I specialize in will be interacted with the other group members. Not only that, I want to be able to learn and develop new skills within the group, therefore everyone would be learning something. I'll continuously be able to contribute under the usergroups name.

How many hours a day are you online:

I am extremely active on Hackforums. I would say I'm online for over 7 hours each day on the weekdays, and the weekends can be limitless. I'm going to write down my schedule below, so you have a good idea of how long I'm actually online for.

Monday: I wake up & go to school (I'll be graduating on the 24th, summers quite soon so I'll be

extremely active throughout the months) at around 7 AM. I'm online during school, from 7 AM - 3 PM. I get home at roughly 4 PM, and I'm on the forums and my discord until about 11 PM - 12 AM.

Tuesday - Thursday: The same thing consist of Monday. My weekdays are fairly simple, and although I still attend school, I tend to stay highly active throughout the website.

Friday: Same thing for the day, I go to school at 7 AM, and I get home at around 4 PM. But when I'm home, I'll be online and awake probably until 3-4 AM, posting and texting people within the website and on discord. As I said, I am extremely active.

Saturday: This is the day I'm online for the longest. I'll be up before noon, and I'll be asleep by around 4-5 AM. Well over 12 hours, and of course I'm not on the FORUMS 24/7, but I am constantly looking, posting, responding, and texting people, as well as on my discord.

Sunday: Same thing like a Saturday, but I get off a bit earlier, around midnight or 1 AM, as I have to go to school the next day.

Are you currently earning online?:

I am! Not the way you'd think though. I'm some what of a big time gamer, and I do buy and sell accounts from the games I play, in which I earn extreme amounts of money. Profits up to \$500 a day. I also have money invested into stock markets, as well as I do consistent BTC exchanging, profiting from exchange rates. I also have started getting into methods to get free things online, for example Amazon and shit. I've got several ways I'm making good money online, but of course, I'm open for that to expand. The more methods I use, the more money I make, which is why I'd love to join Masterminds. Not only will I be able to learn and develop new ways to make money, but I'll be able to share my personal ways on how to make money as well.

Why do you want to join the group?:

I feel like I've went over the main reasons to why I feel like I deserve a spot. My activity within the website would be a major one. I'll be extremely active, contributing and doing giveaways under the usergroups name, giving it more appraisal. Consistent giveaways would be done, not only money and items, but advice, tips, and software between the community, as well as the group. I'll be able to positively interact with everyone, and not get into any bull shit, or petty arguments. Not only that, but I do consider myself a legitimate businessman. Tons of deals completed, with over \$300,000 in total sales done, with many vouches. I'd like to represent myself under this group. To that extent, I'd like to give out some of my personal methods to users within the group on to how to make legitimate, quick money. I would also like other users in the group to share some of their personal methods as well.

If accepted into the group, will you be active in the sub forum:

Yes, mentioning my activity above, I'll be very active within the sub forum.[/b][b]

Bacardi Cola Lime - May 8, 2019, 5:54 am

Name: mentoles

Age: 21

Skills: Let me start with what I'm studying at the moment. I'm a Computer Science currently, on my last year of studies. So as you can imagine, my knowledge revolves around computer hardware and software. In terms of hardware, I have an experience on PC building, repairs and troubleshooting. I can code in C and Java and MIPS Assembly, I can create website using HTML, CSS, Javascript, MySQL, I can design electronic circuits and code them using VHDL. Currently, I'm working on getting expertise on Networks and Telecommunications, and possibly study for a Masters degree later. Out of curiosity, I've gained a good amount of knowledge in Steganography.

Other than my skills around Computer Science, I've been doing graphics for many years. I've earned a good amount of money here back in the days. Moreover, I've had my own GFX YouTube channel, so I can say that I have some knowledge on this area as well.

Business-wise, I've been running a shop's Facebook page since it opened, with success and a good amount of followers. Running my own blog provided me with some nice experience and gave me the opportunity to get familiar with CPA services. Cryptocoins and trading is another thing I'm involved into. I've invested in some coins, while I learned how and when to trade and how to analyze charts.

Last, but not least, I thought that it is important to share some extra skills I've been trying to develop. These are the 21st Century skills (collaboration and teamwork, creativity, critical thinking, problem solving, leadership, etc.) and I've appreciated their value so much, that I constantly try to develop and improve them. I believe that they are important for my career.

How many hours a day are you online: I can safely say that I'm online for 8-10 hours per day, due to my area of studies and my love for HackForums.

Are you currently earning online?: I do make a nice extra income online.

Why do you want to join the group?: While I said I make some money online, I never got the chance to learn new ways and techniques. I want to join the group the get and share knowledge with experienced and non, members while get introduced to methods I've never imagined. I believe that a strong team of individuals can achieve many things, learn as well, and I want to be a part of that team.

If accepted into the group, will you be active in the sub forum: Of course I will! Thank you for the opportunity.

Windows - May 8, 2019, 6:17 am

Name: Windows

Age: 18

Skills: Marketing, E-Commerce

How many hours a day are you online: Most of the day tbh

Are you currently earning online?: Yes, through a few sources.

Why do you want to join the group?: I'd like to be in a group with people that have the same mindset. Also I think it would be a good place to make some friends and network with people.

If accepted into the group, will you be active in the sub forum: Yes. I mainly lurk on HF but i'll definitely be active in the sub forum.

Crypticus - May 8, 2019, 8:43 am

Name: F A D E

Age: 19

Skills: Marketing, software dev, currency exchanging, money management, foreign exchange. As a side hobby I have now decided to run a few game servers to generate my some sort of passive income and paying people to manage those servers for me over games like CS:GO, ark, arma 3 etc..

How many hours a day are you online: 9-15 hours per day on average

Are you currently earning online?: Yes pretty much everyday from many different sources of income

Why do you want to join the group? I want to join this group because I want to be part of something big, something where there are people who are active and think like me when it comes to economy and the general money making criteria. For me, making money online has mostly been solo, hardly anyone has worked with me to a great extent without losing motivation or giving up due to self failure.

If accepted into the group, will you be active in the sub forum: Yes I will devote the majority of my time on HF to being active in the sub forum as much as I can

01001 - May 8, 2019, 11:33 am

Name: 01001

Age: 24

Skills: I got many skills; however, SEO and content writing is my forte. I'm quite fanatic and has a zeal to do something unique. I'm a Security Researcher, Digital Marketer, and a learner.

How many hours a day are you online: 8+

Are you currently earning online?: Yes, I'm an SEO Expert and a content writer, and so far I have managed to earn top bucks! Currently, I'm working on several ventures/projects which require my undivided attention. All the projects have huge potential.

Why do you want to join the group?: It's always good to meet like-minded people and share knowledge and views. Being an entrepreneur, I'm aiming to surge and climb the ladder of success.

If accepted into the group, will you be active in the sub forum: That goes without saying. I'll be happy to participate in group conversation and tasks. Predominantly I intend to be a part of this group and enhance my skill set.

Omega_X - May 8, 2019, 12:14 pm

Name: Omega

Age: 17

Skills: Been programming/coding for a few years now. I think about three. With that I graduated myself into teaching myself more hacking techniques and learned quite a bit there. Without explaining too much, I have knowledge in those fields. I also had a great interested in entrepreneurship; Always was something that interested me.

My experience there was managing different websites/forums, servers (For various different games), and working with large teams. For example I am an Executive Director for a organization called People Of Gaming. I am able to efficiently manage and work with a team of over 40+ people. My role there was to make all final decisions for the success/growth of all of our servers.

Disregarding of my age, I had people working for me that were double my age ;) I'm able to get the respect and authority that I need from people to be successful.

How many hours a day are you online: I'm on daily. No specific time, I always have HF open in the background and stop by when I feel needed.

Are you currently earning online?: [b]Through People Of Gaming and websites. Hosting gaming server and websites.

[b]Why do you want to join the group?: I think it would be interested and fun to teach and learn from others. I believe the most important thing for an entrepreneur is his/her connections and the people they know ;) Being able to work well with people, and communicate is key.

If accepted into the group, will you be active in the sub forum: Of course. Pretty much daily.[/b][b]

Mix - May 8, 2019, 5:32 pm

Name: Mix3rz Or Mix

Age: 20

Skills: Level design, Marketing, Social Networking, Graphic Design.

How many hours a day are you online: I varie from being online for an hour to over 20 hours a day.

It all really depends what is going on within group chats and the forums itself.

Are you currently earning online?: [b] I am earning from level design currently, I hope to be branching out to hackforums very soon with graphics work But I am a very busy man and sadly I dont have time to work on all my project all the time.

[b]Why do you want to join the group?: I would like to join Masterminds Because I can see it has some protential, its a new group and everyone loves them, But I want to see if the group is any good really as I dont want to be part of an inactive community that sit around with the userbar doing shit fa and just showing off that they have a group Userbar.

If accepted into the group, will you be active in the sub forum: I am active in all 6 groups I am currently in and Im sure a 7th will not hurt one bit. Thank you for reading.

hash - May 9, 2019, 2:10 am

I have my own company (start-up), not sure if that counts as well.

Please, for the love of god. Make the userbar fit the HF background.

Deal - May 9, 2019, 2:12 am

Seems like a nice group. I like the idea. Please do not accept dumbasses into the group. It's easy for a groups reputation to be screwed by only a few members. Would hate to see that happen.

Good luck to all applicants.

Traum - May 10, 2019, 1:28 pm

Name: Traum

Age: I'm 20 years old.

Skills: My main skills are graphic and design related. I have over 7 years of experience with graphic design, and actually earned my first money online with a few thread designs here on HF. However most designs back then were pretty basic and I'd say my skills have increased exponentially over the last 2 years.

I attended several graphic design courses to extend my knowledge and have spent a vast amount of resources to be able to express myself through my art and design.

Other skills I have are a basic knowledge of coding in HTML, CSS & Python, a shallow understanding of growing social media accounts and producing music.

I didn't dive too deep into any of the topics though.

How many hours a day are you online: Depending on the day I'm online for a minimum of 3 hours. On weekends mostly 6-8 hours per day.

Are you currently earning online?: Yes, but only a small amount from my graphic and design work. I've been looking for alternative earning methods for some time now, but most ideas I have and niches I worked out require someone who can code or has deeper understanding of the topic involved. I'm trying my best to find a method that fits my current circumstances and is still able to earn me a good enough amount of money as a side-income.

Why do you want to join the group?: I'm looking for likeminded individuals that want to exchange knowledge in entrepreneurship and marketing and are motivated to partner up and make money together! I already learned so much from HF, and 80% of that goes to great groups who I was a part of. It's a great place to meet new people and work together with members you wouldn't have got to know otherwise.

If accepted into the group, will you be active in the sub forum: Yes. Right now I'm spending most of my time researching methods to make money online and if I was accepted to the group I'd shift my focus towards there as I saw you have some skilled and knowledgeable members in Masterminds, that are hopefully willing to share their knowledge with beginners like myself. Of course I'd still be working on methods on my own, but my main focus would go towards the group, working out methods to make money and realising them with or without the help of other members.

Thank you for reading my application! If you have any further questions regarding my skills or knowledge, please feel free to ask. ?

Always been on the web since a young age, and always used it to my advantage to get ahead in most aspects. It's very valuable how much you can find and opportunities can start if you put in the work for projects to succeed.

How many hours a day are you online: With starting a high-end job in real life, it's taken a toll of my activity online, average currently would be 4 - 6 hours. I've liquidated a lot of time-consuming projects and starting a new job needed to adjust, now I'm just sitting on my capital and racking up my savings which I know I can fit in some more along the months.

Are you currently earning online?:

Yes, my income is made of 60% from online, the rest offline.

Age: 21

Skills: Let me start with what I'm studying at the moment. I'm a Computer Science currently, on my last year of studies. So as you can imagine, my knowledge revolves around computer hardware and software. In terms of hardware, I have an experience on PC building, repairs and troubleshooting. I can code in C and Java and MIPS Assembly, I can create website using HTML, CSS, Javascript, MySQL, I can design electronic circuits and code them using VHDL. Currently, I'm working on getting expertise on Networks and Telecommunications, and possibly study for a Masters degree later. Out of curiosity, I've gained a good amount of knowledge in Steganography.

Other than my skills around Computer Science, I've been doing graphics for many years. I've earned a good amount of money here back in the days. Moreover, I've had my own GFX YouTube channel, so I can say that I have some knowledge on this area as well.

Business-wise, I've been running a shop's Facebook page since it opened, with success and a good amount of followers. Running my own blog provided me with some nice experience and gave me the opportunity to get familiar with CPA services. Cryptocoins and trading is another thing I'm involved into. I've invested in some coins, while I learned how and when to trade and how to analyze charts.

Last, but not least, I thought that it is important to share some extra skills I've been trying to develop. These are the 21st Century skills (collaboration and teamwork, creativity, critical thinking, problem solving, leadership, etc.) and I've appreciated their value so much, that I constantly try to develop and improve them. I believe that they are important for my career.

How many hours a day are you online: I can safely say that I'm online for 8-10 hours per day, due to my area of studies and my love for HackForums.

Are you currently earning online?: I do make a nice extra income online.

Why do you want to join the group?: While I said I make some money online, I never got the chance to learn new ways and techniques. I want to join the group to get and share knowledge with experienced and non, members while get introduced to methods I've never imagined. I believe that a strong team of individuals can achieve many things, learn as well, and I want to be a part of that team.

If accepted into the group, will you be active in the sub forum: Of course I will! Thank you for the opportunity.

How many hours a day are you online: 9-15 hours per day on average

Are you currently earning online?: Yes pretty much everyday from many different sources of income

Why do you want to join the group? I want to join this group because I want to be part of something big, something where there are people who are active and think like me when it comes to economy and the general money making criteria. For me, making money online has mostly been solo, hardly anyone has worked with me to a great extent without losing motivation or giving up due to self failure.

My experience there was managing different websites/forums, servers (For various different games), and working with large teams. For example I am an Executive Director for a organization called People Of Gaming. I am able to efficiently manage and work with a team of over 40+ people. My role there was to make all final decisions for the success/growth of all of our servers.

Disregarding of my age, I had people working for me that were double my age ;) I'm able to get the respect and authority that I need from people to be successful.

(May 10, 2019 01:28 PM)Traum Wrote: [\[CITE\]](#) Name: Traum

Age: I'm 20 years old.

Skills: My main skills are graphic and design related. I have over 7 years of experience with graphic design, and actually earned my first money online with a few thread designs here on HF. However most designs back then were pretty basic and I'd say my skills have increased exponentially over the last 2 years.

I attended several graphic design courses to extend my knowledge and have spent a vast amount of resources to be able to express myself through my art and design.

Other skills I have are a basic knowledge of coding in HTML, CSS & Python, a shallow understanding of growing social media accounts and producing music.

I didn't dive too deep into any of the topics though.

How many hours a day are you online: Depending on the day I'm online for a minimum of 3 hours. On weekends mostly 6-8 hours per day.

Are you currently earning online?: Yes, but only a small amount from my graphic and design work. I've been looking for alternative earning methods for some time now, but most ideas I have and niches I worked out require someone who can code or has deeper understanding of the topic involved. I'm trying my best to find a method that fits my current circumstances and is still able to earn me a good enough amount of money as a side-income.

Why do you want to join the group?: I'm looking for likeminded individuals that want to exchange knowledge in entrepreneurship and marketing and are motivated to partner up and make money together! I already learned so much from HF, and 80% of that goes to great groups who I was a part of. It's a great place to meet new people and work together with members you wouldn't have got to known otherwise.

If accepted into the group, will you be active in the sub forum: Yes. Right now I'm spending most of my time researching methods to make money online and if I was accepted to the group I'd shift my focus towards there as I saw you have some skilled and knowledgeable members in Masterminds, that are hopefully willing to share their knowledge with beginners like myself. Of course I'd still be working on methods on my own, but my main focus would go towards the group, working out methods to make money and realising them with our without the help of other members.

Thank you for reading my application! If you have any further questions regarding my skills or knowledge, please feel free to ask. ?

Name: Styx

Age: 22

Skills: I'm a SE graduate so I have decent software development skills for both web and desktop application development. I also have decent experience with bot development which should be useful in marketing? Not really sure what the group is looking for specifically in terms of skills so I can provide more if necessary, just send me a PM.

How many hours a day are you online: 6-10

Are you currently earning online?: Not currently, hopefully within the next few months.

Why do you want to join the group?: Extra income, plain an simple. I have a relatively large product that I hope to release in a few months to a year and will probably have a few smaller projects to release along the way. I thought I'd apply when I saw the thread considering this is a marketing oriented group which can hopefully provide some insight into the best way to market my products and perhaps put me in contact with some possible resellers both on-site and offsite.

In short, I'd like to become more active on this site while at the same time gaining knowledge of online marketing for my upcoming products. This group seems like a good opportunity to meet likeminded people to learn from and share ideas with.

If accepted into the group, will you be active in the sub forum: I should be active depending on the threads and I'll probably post some OP threads from time to time. I mean I'm not just going to spam meaningless reply's for the sake of seeming active and I would probably only post if I have a decent and relevant reply.

How many hours a day are you online: Pretty much all day. I do have a fulltime job, but honestly it doesn't really take away much time from HF. Am able to still complete exchanges for users etc.

Are you currently earning online?: Yes

Why do you want to join the group?: I like talking to like-minded people with the same goals as me. I am always looking for ways to earn money - whether online, or in the physical world. If I know someone has \$20 waiting on me, you better bet I am dropping what I am doing to go and get it. I also enjoy helping people. I am known at work for putting my hands on anything and whatever needs to be done, whether it is my job to do it or not. I am also the same online. I go out of my way to explain things to people or help them with something they do not understand. I am pretty open about my money making methods with people I am friends with... always willing to explain, and explain again. It makes me happy to see other people be successful too.

If accepted into the group, will you be active in the sub forum: Of course... or I wouldn't be interested in joining. I am excited to see what the subforums contains and meet some new users. I hope you guys accept me, as I am definitely looking forward to building some friendships and helping users make some money!

Note: I make STRICTLY white-hat and legal money. I am not interested in scam schemes, social engineering, or fraud. However, to each their own. If it works for you, I have no judgement against you. Just isn't me. Also, I will be purchasing Vendor in the next day or two.

Edit: I notice that I actually do have a marketplace violation. I hope this doesn't hinder my ability to join. I was uneducated on the rules and was bumping my exchange thread illegally. Have educated

myself on the full marketplace rules since this incident. Everyone makes mistakes!
