Thread: [FormBook Botnet License With Domain](#)

Selling FormBook Botnet Lifetime License with domain
For \$200 BTC

If you want to change domain you have to contact ngcoder and it'll cost \$65
But i'll provide the original domain which has been active for 6 months

For serious buyers i might reveal the domain and logins to test it and preview the botnet and test the formgrabber
But it's very good and very stable, read about it before purchasing please.
