how can i make money if im literally retarded? i used to make over 100 a day e whoring easy now i cant even make a cent doing it 15 hours straight. its completely dead and doesnt work anymore plus im just retarded and not good at anything anyways.

what do i do? i was going to use the money i make e whoring to invest but im too retarded to e whore and i felt like i was too retarded to invest money in anything properly. i wanted to save a good amount from e whoring first but now its dead and doesnt work anymore so i cant.

This all depends on your skillset, find something you enjoy doing, strive for success in that industry and the money will come later. Research is always important, because it will help cure you from being a "retard" in your terms ;)

BTW I don't think you're a retard, but having low self esteem or not being confident will inevitably slow down your progress.

E-whoring does indeed make one retarded. And gay. You should definitely find some other way to make money imho.

You don't copy content and sales pitch well enough. Because every money making method is about getting what you see that already works and copying it. Let's say for example that you want to sell steroids and HGH online and that you have no knowledge about these. What do you do?

- 1) You find shops that seem to be making somewhat reasonable earnings
- 2) You copy their design, spin their description, make similar logo
- 3) Look for where they advertise their service, you can google and find their clients source.
- 4) You sell where they sell

If you can't make money that way, something is missing so you go back to the researching stage and look for details you may have overlooked.

It doesn't require much intelligence, it requires only time and the ability to copy what you see.
