Thread: [Wordpress to MyBB bridge/account link](#)

Anima - May 11, 2019, 6:15 am

Is there any way to link Wordpress & MyBB accounts? For example when a user sign up on one site, it creates the account on the other

There's a MyBB addon called WordPress Connect, works perfectly depending on your WordPress and MyBB installation versions. Alternatively, you could make a trivial edit to members.php and membersSSO.php.

Planning on running a subdomain, never really looked into doing this before. I love wordpress but the forum are really shit on there
