You talk with instagram customer support.

And tell them that your competitor did hate-report on your profile. Simple. They will investigate, if that is true then you will win and your account will be restored.

To submit a support ticket on Instagram follow these steps:

- 1 Go to <https://help.instagram.com>
- 2 On the left-hand side, click Privacy and Safety Center
- 3 Click Report Something
- 4 Select the type of issue you're experiencing
- 5 Look for a link that says report it
- 6 Fill out the form and hit send

You're going to want to click "Hate Accounts" or "Other types of reports"
