Thread: [Developer - GFX Artist - \(or\) - Web Developer](#)

Mr.Peanut - May 12, 2019, 8:13 pm

If you're looking to make money and get a flow of gigs passed (long term working relationship), we might be in business. Here's what I'm currently looking for:

GFX Artist: (intermediate level)Must have decent editing abilities of photos (DSLR shot)

Must be able to recreate designs/logos (nothing crazy)

Web Dev: (intermediate level)Must have a decent understanding of web development (bootstrap/WordPress/custom development)

Developer: (experienced)Must be proficient in PHP

hmu

Edit: Can someone let me know if adding a contract form is necessary on a thread like this?

Sphinx - May 12, 2019, 9:23 pm

i have very decent knowledge in Wordpress/bootstrap/custom development and i have portfolio contact me via :

morw@protonmail.com

GamerBoy1499 - May 12, 2019, 9:36 pm

I can take care of both design and development needs. Will PM you examples of my work, I've built full stack web apps for small businesses and companies. I am highly familiar with bootstrap and use ReactJS a lot.

LeetHost - May 12, 2019, 11:08 pm

We can compile with your all requirements. I've sent you our company's portfolio, please check and revert back.
