Thread: [Steam Bots That Accepts Steam Coupons?](#)

Money- - May 13, 2019, 12:41 am

You guys know any steam bots that allows trade-ins for coupon for like a good gem rate or other types of small or good items perhaps?

I have a lot of coupons to get rid of before they expire. Probably will trade for 200 gems for 200 of them with another guy.

But just want to know if any of you know any good rate steam bots?

Hello! Anyone in the gaming house? I do know some bots but I would greatly appreciate additional recommendations.

Thanks!

I doubt, most coupons are for useless ass games :clown:

There are communities that I believe use automated trade accounts, specialized for coupons. There are probably places on reddit as well. This is a steam community I found:

Yeah that's actually what I plan to trade it for. I always been using them for my coupons.

But now I have large amounts of it due to having a lot of bots farming cards.

Just wondering any other steam bots that accept its for items at a better rate.

Do you perhaps have knowledge in steam ASF may I ask?

Because I don't really find a command to trade coupons to my main instead but only items in my " steam community " section.

Don't see why as most coupons expire and so they won't sell them in time. But I could be wrong it is steam.

Some coupons do last an entire month which will be the ones I possess.

I am not sure myself too as the purpose of others collecting them and eventually not having the time to trade nor sell it off all of them
but I do encounter some steam bots trade coupons for coupons which I assume will be one of the purposes.
