Thread: [Am selling my Formbook formgrabber Pro version](#)

Lextian - May 13, 2019, 3:32 am

Hello Guys,

Am looking to sell 2 of my Form Book bot Pro panels, and yes i have authorization from the seller/coder to sell my panels.

For those that are not familiar with this bot, here is a link to the sales thread for you to learn more about the bot:

<https://hackforums.net/showthread.php?tid=5264027>

Screenshots proof of my panels can be found here: <https://imgur.com/a/d4hrxyK>

Formbook is a formgrabber bot that grabs every traffic on http/https, me with 2 friends were using this for research purposes which is the reason why i have 3 Pro Version + Panel and they are hosted on my hosting/domain which am selling all together in my package bundle.

Some of the panels have a few clients in them and this is included, right now my partners are busy with real life activities and are not online to work on our research project so its a waste for me to keep paying for the hosting hence the reason am selling 2 Panels while i keep my panel which am still using.

Here is a proof from the seller/coder that i can sell my bins/panels: <https://imgur.com/a/2kdNpwl> , also am both bins are the updated and current version bot version 0.3.9 while the panel version is 0.3.6.

Once you buy from me you will be given direct contact to coder and support, u can request updated bins from support directly if there is a new updated version out, now i bought all Pro bin version from seller/coder at \$400 and below is a proof of purchase: <https://imgur.com/a/d4hrxyK>

Am selling each panel for \$250 and it currently as 6 days left on the hosting, If anyone is interested in buying shoot me a PM, am willing to use a trusted middleman for sales and also contract sales is allowed, cheers.
