Thread: [\[FREE\] Private Investigations.](#)

Fluox - May 13, 2019, 2:09 pm

INTRODUCTION

Hello! And welcome to my FREE private investigation thread, i am looking to improve my skills within the section of private investigation but in order to do that i need targets to try it on, so why not kill two birds with one stone and learn more while giving back to the community?

Below is also a section called "THE LIST" there the names of the people that have asked for help and the status of their service, if you wish to know your current status please feel free to check out the list and if at any point you wish for your name to be removed from the list, please PM me and it will be taken down.

HOW TO GET THIS SERVICE

So, you would like to use this service and would like to know what you need to do to get it, well it is quite simple, leave a message in this thread and i will PM you, from there send me what you have and i will work on getting as much information as i can.

DISCLAIMER

My replies to the thread and the service may be a little slow as i had a few targets built up and also have to manage my other two services, i am sorry in advance for the wait time but i will get around to all of you.

Your name will be added to the section listed below called "THE LIST" once you ask for this service, if you wish for your name not to be placed on there, make sure you state so in your first PM to me.

GOOD BOY ! HELP ME PLEASE !!!!!

I have a target for you

HelpNeeded - June 15, 2019, 11:25 am

I joined here to seek help for a serious problem i have.

A family member got kidnapped, her phone is still active and it has internet.
we are trying to find its location.

My best guess was sending a link through bit.ly [WARNING: potentially infected] as bait in hope they click on it and i get an IP logged, unfortunately that method doesn't work when tested as it just defaults to the regional default IP

Help is truly needed if you are serious please pm or email me on helpfindher @ dispostable. com
and i will get in touch through personal email and provide proof of the situation.

Hey all,

I am now starting to go through the many users that have placed requests on the thread, anyone that places a reply after this point will be seen too in my next "batch" of private investigations, this is just so I don't get too overwhelmed and still can have spare time to do what I want while still being productive on hackfroums. I am sorry for the long wait but doing all of this as a one person crew is more than time consuming.

Thanks for understanding,
Fluox.

I have moved over to a new thread due to lack of organisation and execution on my behalf, this new thread is in place to ensure i can offer this service in a way that is easy to manage and very accessible and easy to use for both me and the users that with to use this service, please go over and request a new hit on this other thread if i haven't already completed your request as all active targets where put aside due to me not being able to take track over them, i am sorry for any issues this may cause.
