1 click boys. Someone sent me \$25 USD - it gave me 28 credits so I just was going to do an 8 credit spin then a 20 credit spin (max is 20) - won off the first 8 credits.

Withdrew straight away, fucking winning on the first spin and then going again. That's dumb

Aye congrats bro, reminds me of my first time being on FortuneJack.

They sent me an email, just had to verify my phone number for "no deposit bonus".

Once verified I got free ~\$13 worth of credit. Hit the slot machines cause that's all it was allowed on, withdrew close to \$400

? After that my luck went downhill for some days though, as to be expected

Damn, that money could supply me with enough weed for half a year or longer.

Nice luck mate, imagine if this was when you clicked with 20 credits :D

Come on man, borrow me some of your luck. I never got anything out of these spin games. Only HF spins are nice to me from time to time.
