Just wonder, any of you guys playing this? I just tried it out tonight.

Any thoughts on it?

Yeah I was 12 once too.

Seriously, is the game any good?

Well if you are into MMOs and want something that its core game is free to play, then go for it, give it a try. I haven't heard anyone playing it though, so I'm not sure how alive it is.

I used to play back a few years. I'd be surprised if there is still a big community that still plays tbh.

So this is due to the fact that its not fun or interesting or just that its old?

Mostly old with a sprinkle of stale gameplay

How many players did it have on its servers? I mean it's a 7 year old game but I played older irrelevant games which had a stable player base. Was it that bad?

If you were to purely judge it by its gameplay, what would you say? Is it a game worth trying? Or should we stick to WoW? Lmao

I think it seems worth trying so far. I have limited to no experience with WoW though.
