DOG - May 30, 2019, 7:08 pm

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your product.

[Review of "\\$0.70 EACH | Chick-Fil-A Regular/Spicy Sandwiches"](#)

Initial Reading: Unlike the other reviews and guides that I have done, this one really did not contain anything to read or cover when it comes to getting what members would pay for. Because of this, this paragraph will cover the presentation of the information on the thread as well as communication with the seller. The thread itself is laid out extremely well with a list of instructions as well as a layout consisting of the different prices, depending on the amount of coupons in the pack. Furthering that, the member offers support (which is not really necessary, generally) for individuals that purchase a coupon that does not work. Overall, this is an easy and simple purchase to do and the seller makes the experience itself very quick and easy.

Price: While I am not a big fan of fast-food and I find Chick-Fil-A as being a bit overrated, I still decided to do this review because I was skeptical of the coupon offering and the effectivity of it. I took my girlfriend out and used a coupon to test it out – it worked perfectly. For my local Chick-Fil-A, customers will pay a little more than \$3 per chicken sandwich; on the contrary, the seller here offers bundles of 5 for \$4. Essentially, for the price of one Chick-Fil-A sandwich, you will get 5. Because of this, I am confident in saying that every single dollar spent with this seller is well worth it – you are getting a significantly better deal than you would be getting had you gone to Chick-Fil-A itself.

The Method: Most of the time this section of the review would take up most of the post; although, there really isn't anything to this 'method'. The process to getting a sandwich in your hand is quite

quick and simplistic; you head over to the thread, pick your bundle of packs, send over the few dollars requested, and swing by the Chick-Fil-A with your digital coupon. There really isn't much to this method and there isn't much to carrying it out and getting your sandwich at the end of the day. With that being said, I did not inquire on the methodology of obtaining these coupons, nor did I attempt to discover if the sellers' tactics were considered blackhat. Quite frankly, though, I can comfortably say that using these coupons at a local store will not give you any issues. Overall, I give this service a 5/5 star rating; it is simple, easy, and cheap!
