Thread: [Selling League of Legends Account](#)

ScrotumKnight - May 16, 2019, 7:17 am

Hey everyone, I've spent way too much money on league of legends after quitting and getting back into it. So it's time to quit again lol.

Anyways, I'm back to playing CS now so I'm looking to sell this account for PayPal or even trade for some CS skins possibly.

I'll post some pictures of the account below, on a side note I used to have a ton of REP on here. You can check my post history/account creation date. Not really sure where it all went D:

Feel free to PM me an offer or HMU to talk

Good luck with this, if I had the money, I'd buy it.

How much do u want for this

DWC, Owner can take back the account anytime they want if they have TID's of RP purchases. Not calling OP a scammer or anything, but just letting this fact out there.

I'm really looking for an offer. Anything above 250\$~ would be heavily considered. Anything less and I might get around to selling it if no offers come in. I don't really play league anymore and wasted way too much in this game.

I know DWC is deal with caution, but what's TID stand for? I'm assuming it's just old RP codes I used for the account?

Transaction IDs of like the last 5 purchases I believe and you can easily recover any account. Anybody is allowed to claim an account "hacked" if they have the necessary information about the account.

Send me a pm with more info about the account.

That's really interesting. League account selling sounds like a pain in the ass then....
