Thread: [\[UK 18+ only\] 1000 - 2000+ a month risk free \[FREE HELP\]](#)

mrnelly - May 18, 2019, 5:45 am

As the title says, I'm looking to help 18+ UK members earn some extra cash online.

I'm not looking to sell anything or make any money from this, I just want to share something that's helped me a lot when I was struggling for money because I know how much this could genuinely help change someone's life around.

A while back, I came across a way to make pretty much guaranteed money, from minimal work using my laptop... turns out thousands of other people are doing the exact same thing and that it can't really be saturated - hence why I'm sharing it.

Doesn't involve selling anything, scamming people, misleading people... or even dealing with other people at all.

None of that, but it is only possible for people aged over 18 with a UK presence :)

I'll help you make your first £40 - £50 today, and give you advice on how to continue to £2000 and above a month if desired (or more, if you want to put in some extra work).

Takes around 20 minutes a day.

DM me if you're interested.

Again, not looking to gain from this - just genuinely think people would benefit a lot from this and I wish I knew about it sooner than I did.

So sad that only works with UK, I really wonder about it

mrnelly - May 18, 2019, 9:32 am

Yeha, I'm sorry guys. Just the way it works. Without disclosing the method publically (although I can over instant messenger or something - although I say it can't be saturated I don't want thousands of eyes on it), all I can say is it's because of geographical restrictions on the sites involved and a proxy or vpn won't cut it :).

Sorry again!

Can I see the method regardless even though I am not from UK

I can explain it to you over IM, sure but it's not exactly an effective use of my time. You just curious? It's not gonna work unless you physically live here and have a UK residential address. :)

This method does work, done it for myself a year ago. In actuality, it takes ~40 minutes per day to start off with, but once you get the hang of it it's a lot quicker; will net you an easy grand in a month with little work.

Cheers for that. It's pretty decent yeah. Can easily scale it past a grand with some additional tricks.

Seems very interesting, but also not from the UK. Good luck to anyone that is and hopefully you guys can utilize this to it's full potential.

If you use his identity and address along with a solid UK private proxy, you could profit off of it. Let me know if that's something you could potentially do.

More than a grand, I currently make £2 - £3k a month from it with minimal effort. Tax-free too! :)
