First you sign up [here](#)

When you register put your email as the one you are going to use (they will send a verification code)

For country put United States

For password, put the password you want. Also you need to confirm it to the box on the right.

For devices, select all 3 , ipod touch / pad / phone (it doesnt matter, because you will just be downloading apps and making money) Selecting all 3 gives you a wider ranger of avaiable apps to download, and that means more money will be made.

Same with category, check mark all of them.

Dont forget to tick the small box on the bottom which says "By Clicking Join Now, you agree to our Terms of Service and Privacy Policy."

After you have registered and confirmed everything Login and go to myaccount and click on edit.

[img]http://img.skitch.com/20100714-dyfa42t5c4ammfs4w1ehrfkp16.jpg[/img]

Fill in your paypal information, scroll down and click save changes

Next go to the browse app section. Just download all of them through app cake, and the free ones through itunes. After you installed them on your itouch/pad/phone. Sync it with your itunes library so it will be on both your itunes and your device.

Next to get them to verify, you need to sync it with your itunes so the app will be on your device and itunes. Log out of apperang and disconnect your ipod. Reconnect your ipod to itunes and log back in to apperang. This will make it so apperang searched for the app on your itunes and device so they can verify it.

After all the money you made. go to [My Account] and click on get paid.

You will then see something like this.

[img]http://img.skitch.com/20100714-dn647413sen9hbbb4jewbk4d1h.jpg[/img]

The minimum payout is \$5.00 which can be easily made in minutes.

If you think this is a scam, this is my payment proof. I received my payment instantly.

After that just make a new account (Suggest you use GMAIL Dot trick) and verify, verify verify then get paid. You dont need to redownload cause you already have it on your itunes/device.

Thanks for reading!

Already been posted before, although this looks like a more in detailed guide compared to the rest of them.

I'd also suggest giving credits to the person who discovered this.

How much do they pay for app?

The Hatter - August 8, 2010, 3:53 am

I personally do not know who discovered it =\

But props to them.

And they pay you .25 for free apps and for paid apps they reimburse you +.25

So if the app is .99 they pay you \$1.24

Yes I can say from personal experience that it does.

I used it for every pay app they gave me so instead of .25 I made the full \$1.24.

Works like a charm

I just got this when signed up:

Sorry, Mate! There are no apps available right now. No worries. You can still earn by referring your mates to Apperang.

:((

I selected U.S and all categories etc.

The Hatter - August 8, 2010, 4:17 am

It varies by location and the different settings you gave your account.

Personally I said I had all three (iPod, iPad, and iPhone) and that I was interested in every type of application.

I had 11 available tonight.

Darthmouth represent!!!! - August 8, 2010, 4:24 am

I put U.S all three and all categories. It could check IPs, do you live in the States NotAnAutoer?

I even tried a VPN

Works like a charmWhere the heck have you found a paid app? All I see are free apps. And I'm on Apperang for more than a month now.

You can do this easily.

how do u sync it to itunes?

I hope this answers your question. This is only if you downloaded it via app store on iPod, if you have done it on PC, you just sync it with iPod.

I'm just being helpfull, if your question was just pure sarcasm of authors mistake, heck, then I'm just helping sarcastic people. Oh well.
