FAQ's

1) What is the procedure like?

After we receive confirmation of your payment, we would need your Miniclip account login details. This is the only way to transfer large amounts of coins. We also do transfers to Facebook-connected accounts. Google Play accounts are not possible at the moment. If you do not wish to enable access to your Facebook account, kindly create a new Miniclip account. When we are ready to transfer coins, we would notify you that we are logging in, and likewise when we are done.

2) Is this safe? Will my account get banned?

Yes, it is generally very safe. Since we are potting balls after the coins transfer, Miniclip bots are quite unlikely to detect any suspicious activity. It would be as if you earned those coins yourself by playing games. There have been no cases of account flagging or banning thus far (please check my testimonials).

3) How long does the process take? Please do not worry, coins are usually transferred within 3-4 hours of payment.

4) What payment methods?

We accept BTC at the moment.

5) Can I buy coins in bulk?

Yes, we do large orders too. Due to the nature of bigger orders, please contact us in advance and we will arrange for transfers and relevant discounts.

As well, I'm offering 5 vouch 100 Million coins since I need some feedback

I'll take a vouch copy, willing to write a detailed review
Might buy some billions if it works
