I was looking to take a trip soon and its gonna be 600 there and back does anyone have any info on any discounts or promos I could use?

Any discounts or anything to do with other people's points or accounts will potentially land you in jail.

I wasn't looking for a discount that was related to a fraudulent account. There's a box for promo codes and discounts as-well-as "Know a flight attendant" discount area.

You may be able to score some gift cards on other forums. But overall, try to see if you can find someone who works in the airline, will be able to get you 50-60% off.
