Thread: [90% Winning accuracy FREE crypto betting signal group](#)

xiovv - May 24, 2019, 2:07 pm

Hey everyone, i've been betting on a sports website which is betting in bitcoin only. I have strategic methods for winning the bets with at least 90% of winning accuracy. After experimenting and learned what works and what doesn't work, i decided to create this thread to help you guys out and the only thing I ask in return is that you play over my referral link.

Leave a reply on this thread (DO NOT PM ME) if you want to join the group. You don't need any knowledge for this, all you have to do is bet on the team that I tell you that going to win.

NOTE: the signals i broadcast in the group are NOT frequent because I try to keep the quality of signals high - meaning I only give signals to the games that I am almost certainly sure that we are going to win, minimizing all possible risk of loss.

You can bet however many bitcoins you want to bet, it is not my business to tell you how much to bet but i'd recommend you to always bet 10% of your total budget.

Like I said I will only broadcast signals which are nearly 100% safe in order to reduce any possible risk

Just won another round. 3 people joined the group and won the bets.

Another win. I sent the signals about 5 hours before the games even started:

Joined the group last night to see how good the tips are. Caught the 1st tip but unfortunately, I was asleep for the next two.

So far, 100% win-rate for the short period I've been watching. Definitely worth keeping an eye on, for sure.

Just won another match:

Congratulations to everyone who has bet on this match! The ROI was low but this was a 98% win

chance so if you had invested a lot, your ROI is now sky high.

New signal has just been placed in the group. Don't miss it because it has a high potential to be a win. Join the free group if you want to

Very patient person to work with. He guides you clearly. A huge vouch for this thread and OP.

Most of the signals he provides are win signals.
However, you gotta accept, at times you'll loose when you gamble.

You must definitely try his signals.

TheChaosKiller - June 4, 2019, 11:05 am

I'll happily check this out, definitely seems like my kinda thing!

xiovv - June 9, 2019, 12:42 pm

New group of signals with 95% accuracy has been broadcasted right now for tomorrow!

All signals by now with 95% accuracy were a 100% WIN!

Join the group, try and see for yourself.

You can bet only today because the games start tomorrow!

I am interested in this but I am also already registered at Nitrogen.

Do you think I can I ask the support team to move my account under your referral code?

Ask them but if you are already registered under a different referral then they are not allowed to

transfer you to mine

In the end you could simply create a new account
