Thread: [Smoking Cigarettes](#)

Hitler - May 25, 2019, 7:24 am

I've never found them addicting. I smoked Newport Shorts for like 2-3 years straight not super heavy just moderate and never seemed to get an addiction.

I stopped for like 10+ years now and just yesterday I wanted one so I bought a pack just to have one and haven't had the urge to finish the pack.

Anyone else feel this way?

What about cigars? They're stronger.

Quote:A typical cigarette contains one to two milligrams of nicotine, while the nicotine content of a cigar is 100 to 200 milligrams. Some cigars contain as much as 400 milligrams of nicotine

Well, whether addicting or not, minuscule lung damage is still occurring. Addiction is a chemical, and nicotine is a toxin; it's still being released into your blood.

I smoke cigarettes. They are addicting, but I'm sick of them. Eventually, I'll leave them one day hahaha. It's pricey and unhealthy and doesn't feel nice majority of the time. Although it has it's own perks.

Sometimes I get the urge and epsecially in my dreams I tend to.

fbg - May 25, 2019, 8:33 am

Cigs are gross tbh. Can't stand em

Enzon - May 25, 2019, 11:21 am

I am something in the middle... Sometimes it feels great to smoke a cigarette.
Another day cant do it...

Another day cant do it...Sort of like me, just wanted one out of the blue. Probably because I'm staking hundreds of dollars in a online video game. Shit's stressful.

Yea, sometimes you just feel to smoke one!

Haha, I believe it's stressful!

Bossk - May 25, 2019, 11:50 am

Imfao, imagine inhaling burnt SHIT instead of snusing

Lucky u. I quite for 3 years. Then got hooked again for another 3 years and now quit for 5 months already. That thing gets me bad, but this time I'm done.

Shelob - May 25, 2019, 8:26 pm

Smoking is a trap, unfortunately im trapped.

oRequiem - May 25, 2019, 8:42 pm

I tried cigs, but never got addicted and didn't really enjoy them.

I don't have an addictive personality when it comes to cigs.

red - May 25, 2019, 8:47 pm

I've never been addicted to cigs. As a kid (around 8-9) I used to walk around my town and pick up old cigs off the ground and smoke them. Never got addicted.

I also smoked an entire pack with a friend on our way home from a party one night. Never got addicted after it and I actually didn't like it at all.

Sunniebeta - May 25, 2019, 11:02 pm

I smoked like 5 cigarettes in my life. Shit is not amusing....

Quitting is the hardest thing I've done in my life. Cigs def got me addicted and it's a really hard habit for me to break. Been using the gym as my go to instead of buying another pack. Really wish I could fully stop smoking

impossibru!
400 mg of nicotine is 4 or 5 time a lethal dose.

funtela - May 26, 2019, 12:10 pm

I just smoke those disposable vape pens.

Charlie Sheen - May 26, 2019, 6:42 pm

I don't smoke, never had the desire. It smells so bad.

My fiance does and even after just one cigarette outside, when she comes back in she smells so bad I spray air freshener.

SIM-1349466 - May 26, 2019, 7:03 pm

I smoked consistently for 12 years and have been on and off for the last year. After smoking for so long, it doesn't taste or feel the same and it makes me not like it as much, which is why I smoke like, a pack a week compared to a pack and half a day.

Thrift - May 26, 2019, 9:04 pm

I don't get addicted to cigarettes at all, they are just disgusting, unbearable. I bought a pack a couple of weeks ago and just ended up giving it away after 2 or 3. But here I am addicted to 60mg nic.

Luna - May 26, 2019, 9:35 pm

Depends on the cigarette tbh. Menthols are usually less addicting i find. I smoke around 0.5-1.0 packs a day
