Thread: [\[WTB\] Undetectable Glow Wallhack](#)

Can anybody make a pasted personal cham for me? I had somebody that made me one awhile ago and it was undetected for the longest time, quit playing, came back and the new UI update broke it. Can anybody make me one for a reasonable price?

If you ask a known cheat dev, I'm sure they'll be more than happy to do it. You can ask Menalix, he made a private cheat for my friend once
