Electrode's Advanced eWhoring Course

I have been a part of the eWhoring Community since 2011. I have been active in the section for years helping members make the money. I haven't been active in the past 3 years as much as I have moved on onto sales and more profitable ventures but I always came back to eWhoring here and there to see how its being done and doing my own autopilot methods in my free time.

I have a vast knowledge of all the eWhoring categories and strategies using picture packs or VCW and using a varied amount of platforms knowing the best ways to get you making the best money.

Contributions and Accomplishments in the eWhoring Forum.

The premise

The course will cover a bit more advanced technique on how to make more money out of your customers. In this course, I will explain to you a manual method that yields very high sales. Doing this method I make 150\$ average sale. It does require being familiar and a little bit experienced when eWhoring thus I would not recommend if you didn't make at the very least 10 sales before.

If you are just starting I recommend you look into my mentorship school program clicking my signature below. I am using a very unutilized site and converting customers to Snapchat. The method is targeted to high paying customers so no beggers and sky is the limit.

Due to the nature of the method, I will sell only 5 SLOTS + vouch copy slot. This traffic source is not very popular so will try to keep it inhouse and to prevent any leaks. One vouch copy available for reduced price.

My personal stats: :

Avg time spent working on the method daily: 3-5 hours
Avg customer paid 113\$
Average customers (sales) per day : 1.8
Average daily earnings : 203\$

Same as with my mentorship I am also so confident in my methods that I'm offering a full refund if unsatisfied with my course and unable to earn. (hasn't happened yet but putting this here for the

peace of mind)

You can also check out the reviews from my [MENTORSHIP THREAD HERE](#)

Price:

Vouch Copy : 99\$

Premium Course Access (5/5) : 199\$

Payment method: Bitcoin /Amazon Gift Card / Skrill (custom arrangements can be made also for more trusted members)
