Thread: [Do not deal with user Funtela = UID 1610871](#)

nReo - May 27, 2019, 5:22 am

Hello,

Just making this thread, because I noticed scamming user is active again here after long time away after his multiple scams what he did before leaving vs new members.

Here is thread, where he scammed me under username RAGNAR.

<https://hackforums.net/showthread.php?tid=5935762>

Here is fresh scam thread vs another new member under username Funtela:

<https://hackforums.net/showthread.php?tid=5972454&highlight=1610871>

Here he scammed another new member under username RAGNAR:

<https://hackforums.net/showthread.php?tid=5936113&highlight=1610871>

He has used usernames like RAGNAR, RYAN REYNOLDS and Funtela. Changing them and going for another scam.

I don't win anything from it, but I hope maybe some guys will -rep him to actually stop him. Here is his deal disputes page also:

Thanks for your time.

We dealt a while ago and you sold me an AGC that was already redeemed. I'm not sure what you're problem is, but I've solved every report I've had in the past.

I've gotten a couple of disputes this month but they were both resolved in a matter of hours due to miscommunication.

Dotexe - May 27, 2019, 5:26 am

Most of them are Resolved, I see no point of opening CA against him. "Changing them and going for another scam." If you really think that's his move shame on you.

Are you kidding me? I do have proofs that you were scamming, read the thread I opened vs you, you cheap clown. For sure everyone suddenly selling you "redeemed codes", you got million open disputes and threads against new members. You are scammer and that's the fact.

Nobody cares about your lately resolved disputes, because you are playing the "good guy role" again now until you fucking exit-scam again like you have done million times before. And it's fact.

Do not ever trade with this lowlifer, you will save your time and money :)

Look the threads against him. Most of the scams he's done is vs new members, without contract. That is his style. Read the thread where he scammed me and you will see how well its proved there. Everyone there agreeing with me, except the guys who were moaning about I did not have contract.

Best of luck in resolving this

Any honest user does not have this much scamming threads + so much disputes at deal database. He is clear scammer. Just look through how many new members he has been scamming by easy sentences "codes were claimed". What is clear bullshit. I do have proof that my codes were not claimed and he did it right after I gave them to him. Proofable via screenshots with him via Discord + time of codes were claimed. Right after I gave him, they were claimed.

I would not write here this thread, if I was lieing as it was while ago and I would be super stupid to do that. This lowlifer is scammer and I hope his mother ain't proud of him.

Generally people will search UID before dealing with a user. Judging by the history he has in the forums, I would say people who take proper precautions, will know to use a middleman when dealing with him.

nReo - May 27, 2019, 5:38 am

Yeah, middleman for sure needed IF to trade at all with this lowlifer. I will just keep warning others at his threads to save others from getting scammed and losing money.

funtela - May 27, 2019, 5:43 am

I honestly don't know what else to say. Yes I've had a few reports in the past but I've solved them as best as I could.

You continue to harass me all the time for a code that was redeemed. Whether you redeemed it or not there's nothing I can do about that.

Stop talking bullshit about redeemed code, if you know it were not liek this. You redeemed them and its prooved already at the thread I made against you while ago, here:

<https://hackforums.net/showthread.php?tid=5935762>

Don't worry, I will keep posting. You are lowlifer.

Stoke - May 27, 2019, 5:49 am

Does seem a bit like harassment but I'm not surprised it's happening with the amount of disputes this dude has got.

Just saw that he had a deal dispute for \$5 that took three months to resolve. Mad.

nReo - May 27, 2019, 5:51 am

Yeah, it may look like a harassment a little, but its just sick how one clown can abuse the system and keep scamming innocent people by stupid excuses what is clearly totally wrong IMO.

I would stay away from [1610871](#).

I remember him having lots of scam reports opened against him.

Thank you for opening this thread.

Maybe others will read it before dealing with this guy!

Sorry OP, looks like you got taken advantage of because you're a new member.

Scam happened long time ago. He made exit scam, scammed lot of new members (because we were stupid and did not know about contract system, our fault though) and quitted forum for a while. Now I just noticed he is back online and advertising different sales on forum so I decided to open this thread. Thanks for support, though :)

No problem, at least you've learned your lesson.

Bro what are you talking about? When did I exit scam? I've been selling the same stuff on here for years.

Don't call me bro, first. Second, you were away of forum couple of months after you did multiple scams vs new members. Everyone here understanding that you are big scammer, so stop talking your bullshit. You making look yourself like a total dumb idiot, sorry.

You claimed here that I was giving you REDEEMED codes, while when trade happened you told me clearly that your Discord were hacked and you were not at Discord. :D How stupid you can be? You fucking scammer, stop talking trash.

Eagle 95 - May 27, 2019, 7:23 am

There's no real need to open a CA for this. Just search the UID and use your judgement whether or not you should deal with him.
