Super Broken Betting Strategy

This strategy is designed to a super safe and super broken strategy

You can just apply the settings and let your vps run it

Do not expect to be rich in just 1 days as i said it's designed to run for long time or you can also scale your strategy by this to earn fast

DON'T BUY IT IF YOU'RE EXPECTING TO BE RICH IN ONE DAY!

How is this different to others?

I've seen many private and public script but i've saw no one using this strategy before so i decided to sell it

This strategy can be run for 24/7 of course you won't earn fast it's design to run long and slow profit

Price of this strategy is \$30 [BTC, ETH, Paypal]

You can purchase through my selly or add me on discord (Eurynome#8314) if you've any question on this strategy!

Here's the proof of me running for one days and still rolling!

You can judge by that bet times
