Did you contact the guy prior to opening this dispute?. He maybe able to solve your issue by customer support. I am not taking any sides here, just saying.

How could the tool not work if I haven't even sent it to you yet? This is the dumbest dispute I have ever seen. If you would like me to send you the tool I can do that but since I haven't sent you the product yet I can refund you. You decide

Been traveling for a bit so I havnt been very active on here and just realized that this dispute was still open. This user literally opened the dispute before receiving the product and claims it doesnt work! HOW DOES IT NOT WORK IF I HAVNT EVEN SENT IT TO YOU YET? He also never attempted to contact me once and when I offered a refund to him he tried to get me to send him btc when he claimed he paid with paypal. However, when I looked through my transactions that day he never even paid me and pretty much attempted to swindle me over \$15. And I now have a BS negative b rating that will stay there forever :/
