User came to me via pm's offering to sell btc after I responded to someone elses thread looking to buy. He made it clear he did not want to go first. I told him thats fine and we can use a middle man. He very quickly refused.

Upon him saying that told him no due to the potential of scamming and this was his response.

Just a heads up for the little PM creeper :D

You've actually admitted to being a multi twice now. Guess it's a good thing I posted this :D

no, staffs can just close your account. having multiple accounts is not allowed.
anyway that's not a valid excuse unfortunately, also OP only made a community alert, not a scam alert but a possible one.
and now you're admitting to be a multi so OP just did the right move.

i assume it got closed for scamming ? ?

i'm not the type of person to go around calling everyone multi.
regardless of the community alert, you also admitted it so there must be a possibility of you having another account.

But on the other hand assumptions are stupid asf. Not saying you are because I actually stated multi but OP is for accusations. He actually was quite rude when I refused to do a deal. Calling me a scammer and opening this alert.

I'm curious as to what your definition of rude is? I posted your response to me. You're more than welcome to post mine if you'd like. The pm system is such a pain that I didn't bother clicking every message to take a screenshot.

How's the OP clearly more trusted? Not sure how you can say that about a member with 1 B-Rating? Unless of course, you're basing trust on the fact he bought a \$15 upgrade.
