It means that each party will provide an equal amount of currency. So in this case I'm exchanging my PP for BTC. At 1:1 if I was providing someone \$100 PP than I would expect \$100 BTC in return. Hope this helps you understand!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
