Sealed FBI audio tapes allege Martin Luther King Jr. had affairs with 40 women and watched while a friend raped a woman, a report claims

FBI documents from the 1960s allege Martin Luther King Jr. had affairs with 40 women and stood by as a friend raped a woman, a new report said.

An article by the King biographer David Garrow set to be released on Thursday in Standpoint magazine will detail the FBI memos, London's The Times reported.

Garrow said the memos say King engaged in orgies, solicited prostitutes, and "looked on and laughed" as a pastor he knew raped a woman.

The memos were part of a huge US National Archives data dump in early 2019.

The FBI secretly recorded King in a yearslong effort to discredit him. The tapes themselves remain under seal in the US National Archives. And Garrow's article was rejected by more prominent news outlets. So the story carries many unanswered questions about the accuracy of the FBI material.

The King Center, which chronicles King's life, has not yet commented on the allegations.

I don't doubt him having affairs with 40 different women, he's a good looking guy afterall.

This is pretty crazy. Really makes me want to hear these tapes

Honestly, I think this was just another attempt by the FBI to silence MLK.

I won't completely disregard this but you have to know FBI were known to spy and disrupt what MLK was doing. For them to release such information now after so many years after his death is quite suspicious. If the FBI really had that much dirt on him they would have released that information while he was still alive. Thing is the evidence is most likely fake, they only want to discredit him, those snakey FBI cunts

I always take shit like this with a grain of salt, while it's not unheard of that people of power participate in terrible things... he's not here to defend himself so this is a cheap jab.

Kevin Spacey was a case of acting brilliance and at least he's alive to defend himself.

Yes, because instead of reading it and leaving it at that - I made a thread for discussion to get different view points while also including "allegedly" in the thread title.

Buddy my reply wasnt aimed at you, this is what I hate about Hack Forums people getting butthurt and mad. You had to give me negative feedback because of my opinion? What the fuck, this was a discussion thread not an argument one. Needless to say grow up and respect peoples opinions as they would yours.

To clarify my post as well it was intended to mean you should look at both sides of a story not one, in thia instance MLK is being accused of explicit relationships with dozens of women and an accomplice to rape.

Just grow up before getting mad and leaving negative reviews.
