Thread: [Skype Spam message tool](#)

CloudHub - May 31, 2019, 4:25 am

I have created a Skype spammer/mass message tool just wondering if anyone would be interested in buying it would sell it cheap for like \$5 a month please let me know if anyone here would be interested and I'll start making a sales thread for it if there's enough interest.

Also have another version I use for my business

The ultimate and handy bot for commercial use or personal use. You can call it an Advanced Tool, Bot, Manager, Control, Manager, Program, Software, anything you want.

It does anything you want, no need to have any extra knowledge, it's easy to use! Help your customers through skype or simply automate your skype. This application is a good Skype marketing method which can make your customers/contacts satisfied.

This bot has many different features, such as.

Skype Bulk Contact Adder

Fake quote generator

Auto decline calls

AFK Message sender

Message Schedule (Send a message to all contacts or specific contacts on a specific date/time)

Auto Responder (Respond on specific words or sentences people say with your custom text)

E-mail to Skype ID (Import e-mails, checks if those e-mails have an skype ID)

Broadcast to all online users, or everyone

Mood changer with interval

Block/Unblock contacts

Change your skype status

Chatlogs

And more to come...!

Customization Service

Do you want to have your own custom and unique command?

Do you want to have this Skype Bot fully customized?

Just send me a message to discuss about the possibilities and the price!

i think a Discord spammer would be more profitable, I could write a Skype one in a few lines of VBS

I already have a discord spam bot but a vps is required as its quite intense once I actually have it stable I may sell it.
