VOUCHES:

(Jun 2, 2019 06:30 AM)duplex Wrote: [\[CITE\]](#) Here's my honest review of this e-book.

I'm impressed with the detail and the information within this book, it's very straight down to the point with no bullshit, it tells you exactly step by step on what to do, user also gives extremely knowledgeable advice regarding tips on how to act with the customers etc.

It's cut down into 3 sections which are very easy to follow, tells you a good way to accept Payment(s). There are a lot of helpful tips in this book that work well with the method itself, the method doesn't involve any typical saturated sites like omegle etc and I believe this method can make people some good chunk of money.

It's real, it's down the point and the user has been very helpful when I asked him a few questions that I had about the method, everything seems pretty good.

I'll be sure to test this method real soon and I'll update here.

Thank you.

However, for the price of \$10, this is actually a good guide for beginners on the basics of eWhoring.

My favorite part about this product would probably be the pictures included in the PDF. As a visual learner myself, these images give you a good idea of what he's talking about and should help you follow the steps relatively easily.

Thank you for giving me the opportunity to review this eBook.

Vouch copies have been given out and are reviewed in the first few posts of the thread. If you have a real-life girl, then my method covers your need.. quite frankly better then I'd be able to do it, considering you have a real girl who is willing to do this!

I, being really new to the ewhoring thing find this 10\$ book worth more than the 2 other ebooks I've bought which were each respectively 75\$

OP brings 1 main method for traffic which I personally was not aware of so its deffo worth the money for me.

He even puts in 'copy pastes" which you could use, obviously giving your personal twist to them is perhaps better, thats up to you

OP provides cash out methods / goes deep enough to have an idea about the SE being used

I can say with honesty that those 2 other ebooks I've bought combined provided me less knowledge than this one for 10\$ loooll

- Grammar: IDGAF about grammar, I wanna make money not write a dictionary so I give it 420/69
- Method: Since its new to me 10/10
- Easy to do: 8/10
