hi,

i don't thinks you put a right argument when you call function setsockopt.
can you please check in man 3 setsockopt

When you say man 3 is this what you are referring to :
<https://linux.die.net/man/3/setsockopt>

root_ff - June 2, 2019, 9:51 pm

yes or open your terminal and just put man 3 setsockopt

Thank you sir, will let you know how this goes

root_ff - June 2, 2019, 9:59 pm

you should have root privilege

please check this example ----> [pastebin . com/ YSiMThRn](https://pastebin.com/YSiMThRn)
