I do win 4 out of 5 bets in cricket on an average. I usually bet on number of runs score. Most number of sixes and fours and such stuff.
Though then my loosing bet is usually large enough to sink my profits of 4 winning bets.

What do you guys feel like it is the right thing to do here? I am ok with splitting. It's a weird outcome. I didn't think that that could happen. If I got it I was going to send them half anyways because of this.

(Jun 12, 2019 01:47 PM)secretachiever101 Wrote: [\[CITE\]](#) What's your opinion on this? To split the prize?

Just do the poll for fellow members. Because I can do the same and delete all my previous posts until I have a current #216 post number. But that wouldn't be the good way. Isn't it ?

I'll leave this to fellow members. Does the splitting is ideal or I deserve the prize ?

Edit : Even a staff member can have their say on this. It'll take only 20 seconds for them to have a look at this.

Bael - June 12, 2019, 2:09 pm

I would definitely say to split the prize. Because the current winner had no impact on this and didn't do it so he can win. That's the other user who messed up.

SecretAchiever101 - June 12, 2019, 2:24 pm

After careful thought of the situation we are in right now, I concluded that the reason we are in this spot right now, is because of me. I didn't clarify it from the start, that the original owner of the post number #216 gets to win the full prize, so @123 feels entitled (and should be) to win the full prize and on the other hand @katyuska feels entitled to, at least, get half of the prize. I'd like to apologize for not specifying the rules of this giveaway from the start. So, in order to cover up for my mistakes, I will send 1k bytes to user @katyuska and 1268 bytes to user @123. Again, I am sorry for this confusion, I should know better. I hope my actions satisfy all participants equally.

are in right now, I concluded that the reason we are in this spot right now, is because of me. I didn't clarify it from the start, that the original owner of the post number #216 gets to win the full prize, so @123 feels entitled (and should be) to win the full prize and on the other hand @katyuska feels entitled to, at least, get half of the prize. I'd like to apologize for not specifying the rules of this giveaway from the start. So, in order to cover up for my mistakes, I will send 1k bytes to user @katyuska and 1268 bytes to user @123. Again, I am sorry for this confusion, I should know better. I hope my actions satisfy all participants equally.

Man I told you it wasn't necessary. You should at least ask Vitani and he'll have a final say.

I'm really sorry for this stupid confusion. It shouldn't have occurred.

DISCLAIMER: This time the award will be handled to the original owner of the post number # x ?

Thank you very much ?

Thank you very much! I don't think anyone could have seen this coming. I haven't seen it happen in any other contests. I was happy with a split so obviously I am good with more. I guess everyone who does a contest has to say something like this now. Thanks for having this great contest. I am going to sell my bytes for UBER for what it's worth. Thanks again!

If you didn't see, @secretachiever101 sent me 1000 bytes and @123 got the original prize of 1268 bytes.
