Thread: [Anyone a higher elo than gold and willing to 1v1 me. Silver 4 NA, need advice pls](#)

BOOSLI - June 5, 2019, 3:42 am

Hey guys, I am silver 4 on the NA server. I main MID and TOP lane.

Since rank is down, I thought this would be a good idea because it may help me and I can use all the help I can get lol.

I am looking for a high elo player, atleast higher than silver and preferably higher than gold to 1v1, basing is allowed, until the first blood. I am looking to see what advice I can get from a higher elo player and hopefully you can point out what I need to improve on or what mistakes I make what I should have done instead.

I am basically just looking for advice/tips/and someone to point out my weaknesses and tell me how to get better on mainly Harrassing while CSing, and knowing how to just completely stomp my lane from level 1-18. I have been completely destroyed in lane against champs that I counter before and that's because of the elo gap for the most part. I want to know how to do this.

I'd like to use mid or top lane, I am not great at ADC.

Message me on here or in game

Just a simple 1v1, if anyone got free time definitely let me know. Please don't be an impatient asshole if you are willing to 1v1 me. Also please don't just tell me I suck, git gud, or tell me to just admit I am bad. I am hoping for some real advice, if you can point out what I do wrong, I want you to tell me what I should have done and how to do it after.
