Thread: [Advise for IP , tracking cookie](#)

be367787 - June 8, 2019, 8:45 am

i need some guys advise on creating multiple duplicate accounts on gambling sites.

There are some challenges .

1) new phone , new sim data, no wifi on at all times

is that good enough for step 1) , if i happen to forgot to off my wifi while i am not surfing their site is it safe ?

they use tracking cookie on thier live chat which is inevitable .

I like to know the tools and information casino side receive on their end, esp their live chat. What information they receive on their end.

willing to pay someone for chat at telegram .

email me at philkoon@yahoo.com

hi i really need your help . chat via

telegram . t.me/Be36778

payment by paypal \$10 USD . i need to see how good you are by passing some test regarding internet privacy. its not a hacking exchange just some advise thats all.

Lmao I literally have 2 degrees in computer science, one involving security, and 8 technical certifications. I also work professionally in this field. I dont need to adhere to a mediocre test. Ill PM you and play your game.
