Be careful! He is a liar, don't do business with him, he cheated me \$100, he didn't reply to me, he didn't answer the phone, it's been seven days, stay away from him! Here is the conversation with him, and my payment.

Did you use the contract system?

Weebex - June 9, 2019, 9:26 am
So you didn't bother registering here and doing the deal here, but instead added his skype, got scammed, and then created the account to make this thread. A contract would of made this alert a little more valid.
