A little bit of everything, the website is more clear on details! Mainly growth of your existing

product/business but we do more work as well.

P.S. I love the avatar and name, I'm watching money heist for the second time through currently preparing for part 3 :D

I like the original name more "la casa de papel".

Is Money Heist also voice translated or just the title?

I only watched la casa de papel.

off topic but why does the text in design look very LQ.

use a different host to upload it as either you lost quality when uploading (can happen with imgur) or gfx guy is horrible
