Thread: [Important to flush the waste!](#)

scam. - June 12, 2019, 2:02 am

As I was making my daily deposit (and I`m not talking about the bank), I started thinking a few things, as you do .

We all know if we cant rid the waste product from our physical body, we will get sick, as the waste becomes poisonous, and disease and death comes sooner than you expect.

Amazingly the same happens with our spiritual body, if we consume spiritual waste and not eliminate it, by being led by the Holy Spirit, once you are truly born again, you will be spiritually sick and eternity will be a hot one.....

Sometimes we really need to keep flushing, as the waste doesn't want to leave .

Seeking Jesus in all things, as He will help you kick the junk, from the inside out, so your body is the LIVING temple and not the shack down the back , where you are physically, emotionally and spiritually strong. Joy of the Lord is your strength...Nehemiah 8:10. God Bless
