Thread: [Upgrade to V3ndor](#)

SecretAchiever101 - June 12, 2019, 7:22 am

Can I apply for V3ndor if my deals are mostly,if not solely, in the Currency exchange sub-forum?
Or I am not allowed to apply for V3ndor because I do not have a personal site?

Thanks in advance! ~ V ?

This might be the same case as Ub3r application back then? You probably won't know unless the admin reply to this thread.

A personal site is not a strict requirement. That text field exists so you can link your site if you have

one.

Just apply. If you get denied, that sucks, just wait a bit and apply again.
