Thread: [NEED BANNER + MINI EMOJI FOR TWITCH CHANNEL PLS!](#)

ControlL - June 13, 2019, 1:59 pm

Hey GUYS!

It's been a while since I posted, so basically I started up a new twitch channel which I will be live streaming poker, I've currently done all the graphics so far myself (through twitch) however i'm looking for someone to create me a banner to put on the left side of my channel, here is an example of where I need it on my page:

<https://imgur.com/a/MKoiYW2>

ideas of others, obviously colour has to go with my channel layout, I'd look to have like my name there, social medias flicking through as like a GIF, example:

<https://imgur.com/a/afUDBUo>

also on the above photo if you see in the top left she has like a mini emoji of her, can anyone make that for me please? quote me and show examples of your work please.

If you want to see my channel, its: twitch.tv/checktrapnuts (also please follow if you like watching streaming) thanks!!!
