buccaneer-Finger - June 14, 2019, 6:03 am

Hello guys , giving back to the community cause it been nice to be around the forum. So as the title says I will be giving out 30 RDPs random to the first 30uber and leet each for one person and be assure two people won't get one RDP. As they are random you will be getting users account . And they range from window server 2003 , window 7, windows server 2008 .

Nb: I might be late in responding but just be patient you will get it .
