You can set different messages and it will spam to all strangers with same interests, or you can choose to spam all strangers, even with different interests.

You can get proxies for free. Captcha can be solved or you can skip captcha, so you will pay only for the bot.

Man, it all depends on your settings. If you set like 100 threads, then it chatted to itself too, so you must count that.

If you tried latest version, there is a checkbox, so you can choose if you want to spam same strangers, or skip when it connect you to same stranger. So if you checks it, then it should be much better.

Latest version have the language choose, if you let it to all languages, then the results will be much better, or you can choose Sweden only..

And please don't say, that it's not working, if I had more than 300 adds in a single day running it. I can put there proof if needed.

It's so expensive, because it's mostly used by eWhores, who make money back with this bot in less than one hour.

Here is, how the video chat works. The video keeps loading :)

what is your discord man ?

Stanley - January 31, 2021, 4:49 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP

(Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Any rotating residential USA based proxies are best for Omegle and also for skipping captcha.
