Dammn, What software?

11/10!

prostore - June 20, 2019, 9:14 pm

Very good and nice work, cheers

Crimin4L - June 21, 2019, 3:50 am

Thats amazing. 11/10 for sure my man!!

Anti - June 21, 2019, 9:39 am

Thats actually very nice, looks real. What software did you use?

duplex - June 21, 2019, 9:40 am

Cinema4D? Looks fucking beautiful, IT'S FUCKING BMW TOO, FUCK ME SIDEWAYS.

I knew that the Cinema 4d program was a great opportunity. But you made it very chic.

xD it's not that good imo lol. You should see the work of the people that do this for a living. You really cannot tell what's real and what's rendered haha.

It's pretty good bro. I literally thought for a second it may be a pulled pic from their site or something, just with a weird filter. Now that I see its a render it cant be unseen, but it is still great. I did 2d design work(nothing interesting, advertising/vinyl mostly) a while back so this is truly impressive.
